New and updated spa & pool products

## DUCKS WITH ATTITUDE

No pool is safe from the charm of a Devil Duckie, says **Accoutrements**. The 4½-inch-long rubber ducks are now available in three new colors: orange, green and zebra striped. Each duck comes in a net bag with an illustrated header that includes lyrics to the Devil Duckie song.

## ◀ LIGHTS AND ACTION

The Lighted Pot, from **Fiberstars**, comes with a planter, 45 feet of pre-attached fiber and a lighted bubbler spout. The pot, which the company says provides aural and visual appeal, can also be attached to an existing illuminator. The pot is lightweight, easy to install and available in white and tan. The company says consumers can also paint the pot.

## CUT QUICKLY ▶

Red Razor Pipe Cutters, from **T. Christy Enterprises**, feature a special blade design that gives a sharp, clean and quick cut to pipes up to 1½ inches round, the company says. The blade is nickel plated to prevent rust, and can be sharpened. Red Razor pipe cutters come in a vinyl pouch.

## EASY CLEANING ▼

The blue and white Easy Clean 6000 easily attaches to almost any garden hose and will become a favorite device for cleaning filters, **Easy Clean**

says. Simply attach a garden hose to the Easy Clean 6000 and turn its on/off valve. A flat, fan pattern of water approximately ⅛ inch thick will spray into the center of filters for deep cleaning action, saving

users from having to spread apart each pleat of the filter. The Easy Clean 6000 can also be imprinted with a company logo, Easy Clean says. **CIRCLE 203**

## ◀ A SELECT SCIENCE

**Selecto Scientific** makes its debut in the industry by offering NanoTitanium Technology, which reduces organics in water by turning them into carbon dioxide and water. NanoTitanium Technology is packaged in easy-to-use sticks that can be placed in pools, spas and fountains. The company says the stick doesn't leave byproducts in water that might affect sanitation or water chemistry and that the technology works for

four months in 10,000-gallon pools. The NanoSpastick works for four months in 500-gallon spas.
